**Subject:** Re: Citation for your Nafion byproduct 2 toxicology paper

That sounds good Johnsie, thank you!

Hi Nadine,

I spoke with Neil and we will take all mention of your presentation out of my manuscript. I agree it is a good idea to revisit this conversation after my paper gets through EPA clearance, before we submit to ES&T Letters, to see if the status of your manuscript has changed. I will contact everyone if and when it makes it out of EPA clearance.

Thanks,  
Johnsie

Detlef mentioned that you decided to remove the Wilmington data from your manuscript for now. We could still meet with Jane in the future if you think that makes sense.  
Good luck with finishing your paper and wrapping up things at EPA

Nadine

Hi Nadine,

I agree that it would be great to speak with Neil and Jane to figure out how to handle this. Neil was concerned about this months ago and that is why he had be approach you previously. Ex. 6 Personal Privacy (PP)

Ex. 6 Personal Privacy (PP) so it will be Monday before I can discuss this with him.

Thanks,  
Johnsie

Hey Johnsie,

I recall that you said you were considering citing our serum findings in Wilmington residents in your tox paper. I think we should speak with Jane and Neil to figure out the best way to handle this. Jane is on vacation until 6/24 but please do speak with her when she gets back.

Nadine

Hey Johnsie,

I'm working on finishing our PFAS blood paper and I'd like to cite your toxicology work with Nafion byproduct 2. Have you submitted your paper yet?

If you could please provide me with the title and authors, then I can list it as "in prep" or "submitted" for now and then put in the proper reference when the time comes (assuming your paper is published before ours which I'm anticipating it'll take a while to get ours through EPA review...)

Thanks so much, hope all is well,  
Nadine
